

# Enable Internet or WAN for connected devices

In order to enable connected devices communication through the router it is needed to enable Masquerading for outgoing packets on WAN interface:

1. Go to Network → Firewall → General settings
2. Select Masquerading on WAN interface and click on Save & Apply

ZONES		Zone ⇒ Forwardings	Input	Output	Forward	Masquerading	MSS clamping	
lan:	lan: ⇒ wan		accept	accept	accept	<input type="checkbox"/>	<input type="checkbox"/>	<b>Edit</b> Delete
wan:	wan: ⇒ REJECT		reject	accept	reject	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<b>Edit</b> Delete
